Quatation and Specification

BRO U20

- Efficient • Precision
- Smart • Convenient • Durable

The Quotation

BRO U20	1 SET INCLUDE	
 <p>Remark: 1. This quotation is valid for 15 days. 2. The above spare parts are unit price. You can confirm the QTY you need for each parts</p>	 Complete Drone Qty: 1	 Remote Controller Qty: 1
	 Smart Battery Qty: 2	 Maintenance Toolkit Qty: 1
	 Intelligent Charger Qty: 1	 Aluminum Transport Case Qty: 1
	 Fpv Camera Qty: 1	 Obstacle Avoidance Radar Qty: 2
	 Terrain Following Radar Qty: 1	 Spraying Tank Qty: 1

Spare Parts & Accesories

PICTURE	PRODUCT MODEL	PICTURE	PRODUCT MODEL
	Battery (As a spare, 1 pcs)		Centrifugal Nozzle (As a spare, 2 pcs)
	RTK Moudle (Optional)		Spare Propeller (As a spare, 4 pcs)
	Handled Mapping Device (As a spare, 1 pcs)		Aircraft Arms (As a spare)
	Intelligent Charger (As a spare, 1 pcs)		Landing Gear (As a spare)
	Generator (Optional)		Paddle Clamp for Propeller (As a spare)

Noted: This model requieres one battery for operation. The quation already includes one spare battery.
To enhance work efficiency, one more spare battery is recommended. Bringing the total to 3 pcs batteries and 1 charger.

Specifications

Airframe

Product Material	Aviation Carbon Fiber + Aviation Aluminum
Overall Dimensions	1140 x 1330 x 575 (Arms expand, blades unfolded)
Folded Dimensions	1010 x 610 x 575
Total Weight	18kg (Excluding Battery)

Sprayer

Pump Model	Brushless DC Pump
Spray Rate	2-5L / min
Spray Efficiency	8ha/H
Spray Width	4-8m
Droplet Size	60-500um
Nozzle Type	High-pressure atomizing nozzle

Flight Parameter

Max. Takeoff Weight	45kg
Spray Tank Volume	16L / 20L
Max. Flight Altitude	30m (can be adjust)
Max. Wind Resistance	8m/s
Hovering Time	20min (no load)
Operation Time	6-10 min fully loaded
Max Flying Speed	10m/s
Max Operating Speed	8m/s

Battery

Model	14S Lithium-polymer battery
Capacity	14s 20000mAh
Voltage	60.90V (Fully charged)
Battery Warranty	1000 cycles or 1 year

Charger

Model	Dual channel high voltage smart charger
Charging Time	15-20min (Charger from 30% to 95%)

Advantage

1	Position Retention Mode	11	Excellent Battery Life
2	Carbon Fiber Arm	12	High-precision GPS Custom
3	HD Fpv Camera	13	AB Point Memory Operation
4	IP67 Rating for Core Module	14	Field Planning
5	Data Cloud Storage	15	Real time Battery Monitoring
6	Obstacle Avoidance Radar	16	Aircraft Breakpoints Memory
7	Night Navigation Function	17	Enhanced with a high-efficiency 16 or 20L spraying tank
8	Empty Tank Warning	18	Equipped with an advanced integrated flight control system, more durable and saving the maintenance cost
9	Manual Operation Mode	19	Featuring a foldable and durable design
10	Terrain Following Radar	20	90 degree folding retractable adaptive nozzle

Main Components Warranty Period Table

1	Fuselage	12 months	10	RTK Antenna	12 months
2	Flight Control	12 months	11	Data Transmission Antenna	12 months
3	RTK	12 months	12	Motor	12 months in or less than 1000 cycles of use (Whichever comes first)
4	Remote Control	12 months	13	4G Antenna	Free replacement in case of quality problems within 15 days
5	Bluetooth Module	12 months	14	Propeller	Free replacement in case of quality problems within 15 days
6	Battery	12 months in or less than 1000 cycles of use (Whichever comes first)	15	Tank	Free replacement in case of quality problems within 15 days
7	Charger	12 months	16	Landing Gear	Free replacement in case of quality problems within 15 days
8	Radar	12 months	17	Pump	Free replacement in case of quality problems within 15 days
9	Spraying System	12 months	18	Nozzles	Free replacement in case of quality problems within 15 days

Terms and Conditions:

Quality Warranty : 12 Months Free Parts Warranty,
Human Causes Excluded

Packing : High Quality
